The Washington headquarters of MEX has advised that PHILIP MORRISON has indicated that he will leave the DSM Project in September 1946, as he plans to be an Assistant Professor of Physics at Cornell University this coming school term.

In view of his impending resignation it is desired that the El Paso Field Division obtain all available information concerning MORRISON at Los Alamos and furnish same to Albany in order that an immediate investigation might be conducted of MORRISON on his termination with the DSM Project in line with previous Bureau instructions.

Office Memorandum • UNITED STATES GOVERNMENT

TO : DIRECTOR, FBI

DATE: September 18, 1946

FROM : SAC, EL PASO

SUBJECT: PHILIP MORRISON
INTERNAL SECURITY - R

Reference is made to the memorandum from the Director to SAC, El Paso, dated August 13, 1946, advising of subject's contemplated termination of employment with the DSM Project, Los Alamos, New Mexico, in September, 1946, and his plans to accept the position as Assistant Professor of Physics at Cornell University.

It has been determined through contact with MED, Los Alamos, New Mexico, that subject terminated his employment with the DSM Project on September 15, 1946, however, has not departed from the Project as yet. Complete information concerning subject has been forwarded by MED, Los Alamos, to MED Headquarters in Washington, D. C., where it is contemplated the information will be made immediately available to the Bureau in Washington.

In view of the above, no further action is contemplated in this matter in this Field Division and instant case is being considered Referred Upon Completion to the Office of Origin.

RECORDED

EX-10

SAC, Albany

October 1, 1946

Director - FBI

PHILIP MORRISON
INTERNAL SECURITY - R

With further reference to Bureau letter dated August 13, 1946, MED Headquarters in Washington, D. C., has furnished the following additional information concerning Morrison.

b2

"Records in this office indicate that Philip MORRISON, Social Security No. [redacted] Color, white, Height, 5'4-1/2", Weight, 127 lbs., Hair, Brown, Eyes, gray, Born 7 November 1915, Birthplace, Somerville, New Jersey, was employed by University of California on this Project on 22 October 1944. Mr. Morrison will terminate on or about 16 September 1946."

The following is a summary of information on Philip Morrison furnished this Bureau by MED Headquarters under date of September 16, 1946:

"Philip Morrison was born 7 November 1915, at Somerville, New Jersey. Description: Male, white, 6'4-1/2", 136 lbs., Hair, brown, Eyes, green - Walks with a cane - limps due to left leg.

"Subject is Jewish, married to Emily Olive Kramer 11 June 1938 at Oakland, California. Received B.S. degree from Carnegie Institute of Technology 6 June 1936, was third highest student in class; received Ph.D. degree in Physics 25 May 1940 from University of California. January 1941 to July 1941 subject taught at San Francisco State Junior College; September 1941 to February 1943 he taught at University of Illinois; February 1943 to October 1944 he was a Senior Physicist at Metlab, University of Chicago; since October 1944 has been employed at Site Y.

"Morrison is believed to be a Communist and is known to be sympathetic toward the CP line. While working under J. Robert Oppenheimer at the University of California, 1936 to 1940, subject was a member and a leader of a small group of radicals who openly expressed Communist beliefs. Subject is known to have worked and associated with Joseph W. Weinberg, who was investigated because of his acts of espionage against the DSM Project in favor of Russia. He was closely associated with Sidney Michael Dancoff and Robert Serber, other DSM employees in the Metlab, University of Chicago, and known Communist sympathizers.

"While residing in Berkeley, California, subject wrote and aided in distribution of Communist literature; quantities of subversive propaganda publications were found in his room when he moved to a new residence. Morrison was a member of a dissatisfied group at the University of Chicago which attempted to secure control from the Army and place it in the hands of the scientific personnel.

PHILIP MORRISON

INTRODUCTION

There is being set forth below a summary of information pertaining to Philip Morrison, who was born November 7, 1915, of Jewish parentage, at Somerville, New Jersey, and was employed by the University of California on the DSM project from September, 1944, until September, 1946. Unless otherwise indicated, this information came from an outside source and has not been verified by this Bureau.

BIOGRAPHICAL DATA

Family Status

Morrison's father, Moe Morrison, was born March 12, 1886, in Poland, and is an American citizen due to the Naturalization of subject's grandfather. Subject's mother, Tillie M. Morrison, was born September 17, 1898, at Braddock, Pennsylvania. Subject [redacted] years old, who is reported to be employed at the H.J. Heinz Company, Pittsburgh, Pennsylvania.

In June, 1938, Philip Morrison married Emily Olive Kramer in Oakland, California. She was born May 16, 1916, in Pittsburgh, Pennsylvania, of Russian-Jewish parentage. Her father was born December 16, 1874, in Uman, Russia, and entered the United States in 1904 at the port of New York, and was naturalized in Pittsburgh in 1911. He is a mechanical engineer by trade and resides at 2014 Wrightman Street, Pittsburgh. Mrs. Morrison's mother, Fannie Olive Olean Kramer, was born in Russia, is about 57 years old, was at one time a practicing dentist, and presently resides with Bernard Kramer at 2014 Wrightman Street, Pittsburgh. Philip and Emily Morrison have lived together since their marriage. She received a B.S. degree from Carnegie Institute of Technology in 1936, and from 1936 to 1938 she worked off and on for "Scholastic Publications" and "Living Age" in New York City. For the next several years, she held semi-clerical jobs in cities where her husband was located, including the Metallurgical Laboratory at the University of Chicago.

Education

Philip Morrison graduated from the Taylor Allderick High School, Pittsburgh, Pennsylvania, in June, 1932, scholastically ranking first in a class of 259 students. In 1936, he graduated from Carnegie Institute of Technology, Pittsburgh, Pennsylvania, receiving an A.B. degree, ranking third highest in his class. In the fall of 1936, Morrison entered the University of California at Berkeley, California, receiving a Ph.D. degree in Physics from that institution in May, 1940. For the school year 1937 to 1938, he received a University Fellowship in the Department of Physics. For the

year 1938-1939, he received an Abraham Rosenberg Research Fellowship.

Employment

Morrison remained at the University of California as teaching assistant until June, 1941. After teaching a short time at the San Francisco State College, San Francisco, he was employed at the University of Illinois in the Physics Department from September, 1941, until February, 1943. He left the University of Illinois and went to the University of Chicago, where he was employed as a research assistant in the Metallurgical Laboratory, which position he held until he was employed on the DSM project at the University of California in September, 1944. After leaving the DSM project in September, 1946, he reportedly went to Cornell University, where he is presently teaching in the Physics Department.

DEROGATORY INFORMATION

Personal Characteristics

In regard to Morrison's personal characteristics, the above-mentioned outside source has stated that some of his associates and acquaintances have spoken of him favorably, describing him as: honest, discreet, reliable, aggressive, brilliant, polite, studious, etc.; while others pointed out that Morrison was outspoken, indiscreet, pushy, crude, big talker, loud and boisterous, and expounds a vast collection of data, most of which is incorrect when traced to its original source.

Communist Activities

A reliable informant advised that in 1937, information was received that one Philip Morrison, 6468 Forbes Street, Pittsburgh, Pennsylvania, was at one time reported to belong to the Squirrel Hill Section of the Communist Party at Pittsburgh. From approximately 1931 to 1936, Philip Morrison resided at 6404 Forbes Street, Pittsburgh, Pennsylvania.

A reliable source advised that subject, Philip Morrison has been seen at many Communist Party meetings in Berkeley, California, and vicinity, and specifically on December 1, 1940, subject and his wife were positively identified by this informant attending a Communist meeting at the Danish Hall. This meeting was held for the benefit of the "Peoples World," West Coast Communist Daily. This informant considered Morrison as an active Communist at that time.

According to another informant, in 1938, Morrison was a member of the American Students Union at the University of California. The American Students Union was at that time reported to be infiltrated by Communists and followed the Communist Party line. This same informant stated that in 1939, subject was known to be a subscriber to the "Peoples World."

In 1944, Morrison is known to have stated that he had worked closely with Communists and believed in the principal tenets of Communism. At this time, however, he denied actual membership in the Communist Party. A highly confidential and reliable informant advised this outside source that he had

R. Tolson
R. E. A. Tamm
R. Clegg
R. Glavin
R. Ladd
R. Nichols

R. Hendon
R. Pennington
R. Quinn Tamm
R. Nease
R. Gandy

every reason to believe that Morrison, while a student at the University of California, was in close contact with at least forty persons in the Berkeley area who were either members of the Communist Party or members of Communist Front Organizations.

In July, 1944, Morrison is reported to have stated that England and France made a great mistake by not cooperating with the Spanish Loyalists instead of with the Franco faction. He also stated at this time that earlier suspicions of Russia had been unfounded.

While residing in Berkeley, California, Morrison allegedly wrote and aided in the distribution of Communist literature. It has also been reported that he used his residence as a receiving and distribution center for Communist literature and large quantities of Communist propaganda publications were found in his room when he moved to a new residence. While a student at the University of California, he was alleged to have been a leader in the Young Communist's League. Morrison was closely associated with Sidney Michael Dancoff and Robert Serber at the University of California, the University of Illinois, the University of Chicago, and the former at the DSM Site Y. Both Dancoff and Serber were known to be closely associated with Communists.

Morrison was an active leader of the Teaching Assistants and Readers Branch of the American Federation of Teachers Union, a small group composed mostly of radicals in the Physics Department at the University of California. He is known to have worked and associated with Joseph M. Weinberg, a Communist member of a radical group of the University of California. It is alleged by a highly confidential source that Weinberg has furnished information concerning the DSM project to a known functionary of the Communist party. This Communist party functionary allegedly furnished this information to a member of Soviet Intelligence.

While at the University of Chicago, Morrison was a member of a dissatisfied group in the Physics Section which was attempting to eliminate the function of the Army and the E. I. du Pont Nemours Company from the DSM project, in an effort to bring control of the project into the hands of scientific personnel.

Subject's wife, Emily Morrison, according to reliable informants of the above-mentioned outside source, is reputed to be a radical thinker and to be closely associated with Communist-dominated organizations prior and subsequent to her marriage to the subject. Allegedly, she wrote Communistically inclined articles and attempted to have them printed in the school paper while in the Carnegie Institute of Technology. Reportedly, she associated with groups of radicals while residing at Urbana, Illinois, when her husband was employed at the University of Illinois. Emily Morrison listed membership in the following organizations: The American Students Union, American Newspaper Guild, and United Federal Workers of America Union. It is known that the United Federal Workers Union was Communist infiltrated, and from time to time has followed the line of the Communist Party, with particular reference to race discrimination. The American Newspaper Guild (CIO), particularly the Scholastic Shop Unit, of which Emily Morrison was a member, has for a long period of time been

RE: PHILIP MORRISON - *Summary*

A confidential and reliable source has advised that Morrison arrived at Cornell University, Ithaca, New York, about October 1, 1946, where he is presently employed as Assistant Professor of Physics engaged in teaching and doing research work in the Cornell Laboratory of Nuclear Studies.

According to our informant, he went to New York to speak on atomic energy before the New York Herald Tribune Forum on October 29, 1946. There he urged elimination of government restrictions over atomic research and advocated the establishment of a national science foundation, to function without military or naval control, to develop peacetime use of atomic energy.

Allegedly, he has made a number of small talks before small groups at Cornell, both from a standpoint of a scientist and a layman, discussing various phases and uses of atomic energy. Reportedly, in these talks he has consistently urged the development of peacetime uses of atomic energy by unrestricted scientific research and has opposed governmental restrictions and governmental emphasis on atomic energy as a military weapon and has also urged free international cooperation of scientists. He opposes an international atomic armament race.

and she was again contacted for additional information on March 10, 1947.

She related that on June 23, 1932, she graduated from Alder-
dice High School in Bittsburgh, Pa. in the same class with one PHILIP MORRISON,
a brilliant Jewish boy who she did not know except by sight. He graduated
with "highest honor" and was a member of the National Honor Society. Also in
the class was EMILY OLIVE KRAMER a Russian Jewess who graduated with "high
honors". The informant was well acquainted with Kramer from 1928 to 1932 and
states that the family name was originally KRIMSKY (ph) but was changed to
KRAMER by EMILY KRAMER'S father. EMILY OLIVE KRAMER lived at 2014 Wightman St.
Pittsburgh, Pa. [redacted] recalls that KRAMER was very strongly Communist-
minded in high school and that this was generally recognized. It was obvious
through her themes in English and the ideas she expressed in History and
Civics classes.

Upon KRAMER'S graduation from high school she took a degree
in Journalism at Carnegie Institute Of Technology. Thereafter Kramer was em-
ployed in New York City on a publication for high school students known as
"SCHOLASTIC".

She lived at 237 E. 75th St., New York City, and in about 1938
she married her high school classmate PHILIP MORRISON and it is thought they
lived for a short time in Pittsburgh, then moved to California. PHILIP MORRISON
taught school. In about 1939 they moved to 408 S. Goodwin St., Apt 1, Urbana,
Illinois, where PHILIP MORRISON was connected with the Physics Department at
the University of Illinois. Later he was connected with the Physics Depart-
ment at the University of Chicago. They resided at 5118 S. Blackstone St.,
Chicago, Illinois. MORRISON now has his Doctorate in Physics and his wife
worked for the SCOTT FORESMAN PUBLISHING CO., Chicago, from August 1944 to
December of the same year.

Let. to Dir.

In October 1944 DR. PHILIP MORRISON moved to New Mexico where he worked on the Atomic Bomb project at Los Alamos. In December of the same year his wife joined him in New Mexico and their mailing address was P.O.Box 1663, Santa Fe, New Mexico. [] continued by relating that she received a letter from MRS. MORRISON which was postmarked Washington, D. C. December 27, 1946, relating that the MORRISONS had recently moved to 514 Wyckoff Rd., Ithaca, N.Y. It contained no further pertinent information.

b7C

b7D

[] recalled that she heard a radio broadcast, about a year ago, which stated that PHILIP MORRISON had testified before the Senate Atomic Energy Committee and that because of his extreme seriousness and comparative youth he had strongly impressed the committee.

b7C

b7D

[] was unable to be specific as to PHILIP MORRISON'S position on political philosophy except to say that during the late 1930's [] DR. JOHN DEWEY, famous philosopher and writer and who is a mutual acquaintance of the informant, and EMILY MORRISON, invited the Morrisons to a lecture by DR. DEWEY. Dewey's speech was strongly nationalistic and [] noted that PHILIP MORRISON was acting strangely. She asked EMILY MORRISON about it after the lecture and Mrs. Morrison replied "Phil was hurt and upset by the speech and could hardly contain himself."

b7C

b7D

[] furnished the following physical descriptions of DR. PHILIP MORRISON and MRS. MORRISON from memory. However, it should be borne in mind that she has not seen these persons for several years:

b7C

b7D

Name	EMILY OLIVE MORRISON, nee: KRAMER
Age	32 or 33
Height	5' 1"
Weight	130 lbs. (8 yrs. ago)
Eyes	Gray
Hair	Brown, naturally curly
Complexion	Olive
Build	Quite heavy
Race	Russian-Jewess
Nationality	American
Peculiarities	Large upper teeth, wears glasses.
Education	Degree in Journalism from Carnegie Institute of Technology.
Remarks	Her parents are deceased. Has no known brothers or sisters. Family name was formerly KRIMSKY (ph); changed to KRAMER by father.

NY 100-47343

Let. to Dir.

Name	DR. PHILIP MORRISON
Age	32 or 33
Height	5' 2"-3"
Build	Broad, stocky
Eyes	Blue
Hair	Lt. brown
Complexion	Light
Peculiarities	Crippled. Has what appears to be a club foot. Very noticeable limp. Carries head turned to one side as though spine is deformed or injured. Smooth shaven.
Education	Doctor's degree in Physics. Considered brilliant.

b7C A search of the New York Field Division indices against the name DR. PHILIP MORRISON, and a review of the references reflects that all the information concerning him was summarized in the report of Special Agent [redacted] New York, January 27, 1947, in the CINRAD case, page 3, par. 1. This information is being set out here for the benefit of the Albany Office, which office did not receive a copy of this report.

" In the New York Herald Tribune of November 3, there was reported in full a speech given during the previous week at the Herald Tribune Forum by Prof. Philip Morrison of Cornell University. The Herald Tribune Forum was held at the Waldorf-Astoria Hotel and numerous prominent individuals spoke on present world problems in which they were regarded as experts. Morrison's field was that of science and Atomic Energy. Summarized, Morrison's speech is as follows: He started off by quoting a Japanese scientist as having stated to him following the dropping of the Atomic Bomb in Japan, 'You people are wonderful. We performed those experiments on rats, whereas you perform them on humans.' MORRISON then decries the delay in the demobilization of science and the continued subsidization of scientific research which limits research to specified subject in which the subsidizing government agency is interested. He states scientists prefer research without defined objectives because attainment of an objective usually means the probable end of financial support by the government agency.

" Later, in discussing research under the direction of the armed forces Morrison stated, 'The armed forces are always concerned with secrecy and with the restrictions such concerns imply on the travels, publications and even characters and backgrounds of their research workers, such restrictions will harm our associates. It will become narrow, national and secret.'

NY 100-47343

Let. to Dir.

"Above all and in spite of every protestation science will appear to the world as the armorer of a new and more frightful war. We are not far from giving that appearance today'.

" A biographical sketch accompanying the article on MORRISON'S speech in the Herald Tribune indicated he was born in Somerville, N.J. in 1915; was educated at Carnegie Tech and the University of California, receiving his Ph.D from the latter institution in 1940. He later was an instructor at California State College and at the University of Illinois. He worked for M.E.D. at Los Alamos and because of his knowledge of fissionable matter he made a survey for the War Department of the damage to Hiroshima, arriving there immediately after the Japanese surrendered."

" A check of the indices of this field office regarding MORRISON indicates that he is alleged to have been a close friend of ~~CHARLOTTE SERBER~~ a known Communist sympathizer in California, and further, that while employed at M.E.D. he was under investigation by that Department for being an alleged Communist sympathizer. The results of that investigation were not reflected. "

A check at M.E.D. in New York disclosed that no information is contained about MORRISON, in the files of M.E.D. here. It is believed that any information on the subject will be found in the M.E.D. files in Washington, D. C., or in Oak Ridge.

The indices of the New York Field Office contain one reference to EMILY MORRISON, which reflects that she also is a correspondent of CHARLOTTE SERBER.

[redacted] requested that her name be kept strictly confidential by the Federal Bureau of Investigation since she still occasionally receives mail from Mrs. Morrison and does not wish to be embarrassed by having it known to them or mutual acquaintances that she has furnished this office information concerning the MORRISONS. b7C b7D

A copy of this letter is being furnished to the Albany Field Office inasmuch as DR. and MRS. MORRISON now reside at 514 Wykoff Rd. Ithaca, N.Y. where the doctor is presently connected with Cornell University. It is not known whether he is employed in connection with atomic

NY 100-47343

Let. to Dir.

research by the U. S. Government or whether he is employed in a teaching capacity by the university.

 Tele. Room _____

Reference is made to a memorandum dated March 25, 1947, from Mr. Nichols to Mr. Tolson which sets out that Congressman J. Parnell Thomas, while on a trip to Oak Ridge, Tennessee, was told by Colonel Kirkpatrick that they had some twenty individuals under investigation who were suspected of being Communists.

Relative to these twenty individuals, the Atomic Energy Commission has asked us to conduct employee investigations on them, pointing out that they consider them to be poor security risks.

Investigations have already been begun on twelve of these individuals and the cases of the others are being prepared for transmission to the field.

The names and a summary of the individuals concerned are set out as follows:

Cohn, Waldo E.

MED reports that Cohn is a personal friend of Martin Kamen, who was discharged from the Radiation Laboratory, Berkeley, because of association with Communists and because of suspected espionage. His father-in-law was editor of "The Day," a Yiddish New York daily which usually reflects Soviet sympathies and Russia's interest in foreign affairs. Cohn has been reported to have sympathies interpreted as being Communistic; however, MED investigation did not disclose that he was affiliated with the Communist Party. Bureau investigation will be instituted.

[REDACTED]

[REDACTED]

Goldsmith, Hyman Henry

MED was concerned over Goldsmith as he was reported to be a member of Teachers Local #5, CIO, at the City College of New York; however, investigation failed to substantiate this allegation. Goldsmith's wife, Wilma, is friendly with Irene Lange, the wife of Oscar Lange, ex-Polish Ambassador to the United States. Bureau investigation will be instituted.

b7C

[REDACTED]

Krauss, Kurt A.

Kurt A. Krauss, the husband of Elizabeth Krauss whose background is set out above, is alleged to be pro-Nazi and to have evidenced great joy over the past German victories in Europe. Bureau investigation has begun.

Livingston, Robert Simpson

MED investigation has reflected that Robert Simpson Livingston and his wife have been very active in the Fellowship of Reconciliation. His wife has received mail from such organizations as the Workers Defense League and the League for Industrial Democracy and has contributed time and money to the Southern Tenant Farmers Union Committee of the Workers Defense League. Bureau investigation will be instituted.

b7C

[REDACTED]

[REDACTED]

Morrison, Phillip

MED conducted extensive investigation on Morrison and established that he and his wife have many friends and associates who are Communist sympathizers. Morrison is alleged to have taken an active part in the Young Communist League at the University of California. He has made numerous statements which indicate that he has been in sympathy with certain Communist principles. He is known to have worked and associated with Joseph W. Weinberg. He has also closely associated with Sidney M. Dancoff and Robert Serber, known Communist sympathizers. Bureau investigation is being instituted.

Pomerance, Herbert Solomon

AEC reports that Pomerance was a member of the American Student Union, a Communist front organization. He states on his Personnel Security Questionnaire that he is a member of the Socialist Party. He has associated with the most liberal elements while at Oak Ridge. Bureau investigation has begun.

[REDACTED]

[REDACTED]

b7C

Rice, Dr. Oscar K.

A Fifth Army investigation reflects that Dr. Rice was formerly a North Carolina sponsor for the Committee of Equal Justice for Mrs. Reecy Taylor, a contributor to the Workers Defense League. He is reported to have been active in an attempt to form a chapter of the Southern Conference for Human Welfare at Oak Ridge.

Bureau files show him to be a member of the National Council of American-Soviet Friendship and to have defended Russian policy in the Pacific and China. In a letter dated February 23, 1946, to the editor of the Durham, North Carolina, "Sun," he defended Russian espionage activities saying, "We would have done the same thing ourselves." In a letter to a member of the Joint Atomic Control Committee, he stated he would not work on atomic research if the War Department held control of atomic power. Other letters to Congressman Carl Durham have consistently expressed extremely liberal views. Bureau investigation has begun.

COMMUNICATIONS SECTION

MAILED 10

APR 15 1947 P.M.

FEDERAL BUREAU OF INVESTIGATION
U.S. DEPARTMENT OF JUSTICE

SAC, Albany

Re: Phillip Morrison - 1

Morrison has been referred to the Bureau by the Atomic Energy Commission as an employee who is considered a poor security risk. Albany is presently the Office of Origin of an Internal Security (R) case, and they should receive all copies of these reports. The Bureau should be designated as Office of Origin in this employee investigation, and all information on the Morrisons should be incorporated therein. The reports should furnish the Atomic Energy Commission a complete background of Morrison based on MED investigation and on our own investigation. After the employee investigation is completed, the Albany Field Division should continue its Internal Security (R) case if the information developed warrants it.

This employee investigation affords us the opportunity of openly making a thorough and detailed investigation of not only Phillip Morrison but his wife Emily. In view of her activities, sufficient investigation is necessary to establish the extent of her sympathies with the Soviet Union.

MED has conducted considerable investigation on Morrison and copies of their reports are enclosed. All MED material need not be reported. It has been furnished for whatever assistance it may be. Only pertinent information should be reported, but err in putting too much in rather than omitting data. Each office should set out MED material which was reported by the MED office in their district, and each office is to report the employee's activities within their Field Division. Set up the material chronologically and in outline form under suitable headings. As Morrison has many friends and associates of questionable character, sufficient background should be set out on these individuals to definitely show their sympathies and connections with subversive organizations or persons. The MED files from which the enclosed reports have been extracted were turned over to the Bureau by MED for safe-keeping on a confidential basis. Whenever they are quoted the source should be concealed. Other confidential Bureau sources should also be adequately concealed, as copies of these reports go to the Atomic Energy Commission; however, an evaluation of the source's reliability should be set out for the Atomic Energy Commission's assistance.

The Albany Field Division should report all information of Morrison's activities occurring in districts where our Field Divisions have not received copies of this report.

The El Paso Field Division should note that Morrison's stay of duty at Site Y has not been covered by MED reports. Usually MED covered these men quite thoroughly at Site Y, so inquiry should be made to determine if the Security Office at Los Alamos has any information for this period. There is indication in Bureau files that the El Paso Field Division may have received the MED reports.

The New York Field Division should particularly develop the details of Morrison's wife's activities while she lived in that area.

SAC, Albany

Re: Phillip Morrison - 1

The Pittsburgh Field Division should try to substantiate the allegation that one Phillip Morrison, 6468 Forbes Street, Pittsburgh, Pennsylvania, was a member in 1937 of the Squirrel Hill Section of the Communist Party in Pittsburgh. From 1931 to 1936 Phillip Morrison resided at 6404 Forbes Street, Pittsburgh, Pennsylvania.

The San Francisco Field Division should clearly establish Morrison's relationship with the Communist Party while at the University of California.
